Farmers of Texas Called to Meet.

At the suggestion of the Executive Committee of the State Farmers Institute, I am requested by Honorable Fred W. Davis, State Agricultural Commissioner, to call a meeting of the Farmers of Texas, at the City Hall, Dallas, Texas, on January 21-22,

The object of the meeting is to dis cuss the various prablems confronting our farming interests, including a continuation of the fight for prices for producer, and to voice protest against the freight embargo, which is so ruinously operating against condition and value of farm products in some portions of our State.

The enormous loss to the farmers of Texas the past season, by undergrading and underpricing of cotton. and closely associated therewith, the activity of certain Federal and other products, will receive consideration at the meeting.

It is hoped to make the coming political world to insistant demands that the interests of farm producers shall receive more consideration than home and Mrs. Meriwether's, Reward in the past.

The Juajilla Leaf.

The initial number of The Jusjilla Leaf, the school paper published by the seniors of the Hondo High School, made its appearance this week. It is edited and managed exclusively by the pupils, and taking the first number as a criterion they are amply able to carry their enterprise to a successful conclusion. The serious articles are well written, while some of their paragraphing is decidedly good. Encourage the ambitious young publishers. Perhaps a Greeley or a Waterson in embryo is attending the Hondo High School. Who knows?

The Juajilla Leaf is issued from the Anvil Herald office.

The Best Music Is None Too Good For Your Children

Your kiddies should have music. They should have good music.

How can you be sure that they have good music, the best music? One way is to be sure that your phonograph is

The NEW EDISON The Phonograph with a Soul

There is a reason and a very good reason why your phonograph should be the New Edison. You are extremely careful what kind of food your chistren ext, what kind of associates they make and what kind of books they read. Shouldn't you be equally as careful what kind of music they hear, especially in the home?

Just so you can be certain that when you buy a New Edison you are giving your children access to the best music obtainable, Mr Edison keeps a staff of 50 artists traveling all over the United States and Canada singing and playing in direct comparison with the New Edison and proving that their singing and playing cannot be distinguished from the New Edison's Re-CREATION of their voices

Come to our store, hear the New Edison and see if it doesn't give you the kind of music you want your children to hear and to love.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is trained. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer Cue Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Schott-Rihn.

Another pretty January wedding was that which took place Tuesday morning at 10 o'clock in the St. Louis Catholic Church, when Miss Pauline Rihn, daughter of Mr. and Mrs Louis Rihn, and Raymond Schott, son of Mr. and Mrs. Emil Schott, were made man and wife, Rev. Father A. Heckman reading the marriage service.

The bride entered on the arm of her father and was met at the altar by the groom. Then came the maid of honor, Miss Lilly Schott, and Alfred Rihn, Mrs. Frank Rihn, matron of honor, the little ring-bearer, little Miss Dala Haby, Miss Lizzie Kilhorn and Cornelius Schott, Miss Martha Haby and Cornelius Haby.

The bride was beautifully gowned in white satin trimmed in georgette and silk fringe, with lovely veil and a wreath of orange blossoms; she carried a shower bouquet of ferns and white carnations tied with satin ribbon. The matron of honor wore a lovely satin dress of Belgian blue, with hat to match, and carried a bouquet of ferns and carnations; the little ringbearer was in blue and white satin with a large bow of white maline in her hair, and carried the ring on a white satin pillow; the bridesmaids wore white messaline and carried bouquets of ferns and carnations tied with satin ribbon.

After the ceremony at the Church the bridal party repared to the home of the bride's aunt, Mrs. F. Kilhorn, where a grand reception was held. At night a dance was given in honor of the young couple. They were the recipients of many pretty and useful presents. Mr. and Mrs. Schott will make their home at Red Wing and will carry with 47.90 them the hearty good wishes of their many friend for a wedded life of analloyed happiness.

A Story of Sickness and Suffering with Final Return to Health . It will do you good to read it

No matter how long nor how much you have suffered, do not give up hope. Do not decide there is no help for you. There is. Make up your mind to get well. You can. There is a remedy in which you may place full reliance as did Mrs. Rozalia Kania of 39 Silver Street, New Britain, Conn. This is what she says: "I had cramps for three years and thought I would never be any better. I could not eat without distress. Slept with my mouth open and could hardly breathe. No medicine helped

me. I had catarrh of the stomach. Now I have no cramps and am feeling well and healthy. I wish every suffering person would take PE-RU-NA, Catarrh effects the mucous membranes in any organ or part. PE-RU-NA, by regulating the digestion and aiding elimination, sends a rich, pure supply of blood

and nourishment to the sick and inflamed membranes and health For coughs, colds, catarrh and catarrhal conditions generally, PE-RU-NA is recommended. If you are sick, do not wait and suffer. The sooner you begin using Dr. Hartman's well-known PE-RU-NA, the sooner you may expect to be well and strong and in full possession of your health. Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. — had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

She writes further: 47 am in splendid health . can do my work. I feel ! owe it to Cardui, for I was in dreadful condition." If you are nervous, rundown and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. GERMANY UNDONE BY OWN WEAPON

Had Sold to America Secret of Making Explosive From Air.

BIG NITRATE PLANT RESULTS.

Built in Eight Months It Convinces Kaiser of His Defeat.

BY GARRET SMITH.

One of the most romantic passages in the secret history of the World War is the story of how the Ordnance Department of the United States Army made it possible for America, until then utterly lacking in ammunition and in facilities for making it, to manufacture unlimited quantities of powerful explosives out of air and rock. It was largely the knowledge of this fact that forced Germany to surrender when she did.

The secret was secured from Germany herself. It was an open bustness transaction between business men, whereby we apparently acquired nothing more military than a process for making a high grade fertilizer known as cyanamid.

Frank Sherman Washburn, head of the group of business men who bought this process, conceived the germ of the idea in the early nineties while in South America as consulting engineer in connection with the production and shipping of Chilean nitrate of soda. Nitrogen compounds are an essential part of all commercial fertilizers. The only available natural nitrate deposits in large quantities are in Chile. This supply was diminishing. Germany, which had been taking about onethird of the Chilean nitrates, was already experimenting with processes for their artificial production. In 1907 Mr. Washburn secured in Germany the American rights of the cyanamid process which had been invented in that country.

Turning Air Into a Weapon. By this process air, which is a mixture of about four-fifths nitrogen gas and one-fifth oxygen, is placed in containers and subjected to pressure and cold until it turns to a liquid. Then from water. But before this nitrogen can be used as a fertilizer it must be

combined with a chemical combination of lime and carbon known as calcium were highly colored and burned in pas- carbide, produced by burning ordinary sage. I used Doan's Kidney Pills and limestone in big rotary kilns and comthey cured the attack. My back is bining it in the electric furnace with now as strong as iron and my kidneys carbon supplied in the form of ordi-Cyanamid thus produced contains

the elements of ammonium nitrate, one

of the most powerful of modern explosives. By one process ammonia is ex tracted from the cyanamid. By another process nitric acid is extracted then would get so hot they would have from another batch of this same syanamid. Then the ammonia and nitric acid are combined and there you have ammonium nitrate ready for packing

There are three kinds of explosives used for bursting shells in modern warfare-TNT, picric acid and ammonium nitrate. The United States was equally deficient in raw materials and

plants for manufacturing all three of these explosives. Under the best of conditions the cost of either TNT or nitric acid is about two and one-half the cost of ammonium nitrate. But the United States was wholly dependent upon Chilean nitrate of soda as a raw material for ammonium nitrate, with the exception of a small production of nitrogen from the coking of coal. The Chilean supply was 4,500 miles away from New York City by way of the Panama Canal, and the

route by way of the Straits of Magellan is nearly twice as long.

A Record Building Operation. Shortly after the war began in Europe the German government entered

into the fixation of air nitrogen for military explosives on a vast scale. It was not, however, until the fall of 1917 that the United States government took it up.

The Ordnance Department asked Mr. Washburn's company to organize a subsidiary corporation, known as the Air Nitrates Corporation, with Mr. Washburn as president, to act as agent of the government for the construction and operation of the air nitrates plant at Muscle Shoals, Alabama. This corporation provided the designs, erected the equipment in the chemical plants and supervised all the other work. It also operated the camp, the town and the plant. Other work is sublet to several of the best known organizations in the United States. Westinghouse Church Kerr Company built the plant buildings, the camp, the permanent city and utilities. The J. G. White Engineering Corporation designed and built the nitrate acid plant. The M. W. Kellogg Company furnished the piping and built the chimneys. On February 16, 1918, ground was broken, and eight months and eight days later the \$60,000,000 Muscle Shoals plant began producing ammonium nitrate. In that brief period 23,000 men had completed the plant and around it, where not a house stood before, had arisen a city of 25,000 inhabitants.

This plant when in full operation was ready to provide 13 per cent of all explosives to be used by all the allies on all the allied fronts during the ex pected spring drive of 1919.

"I'll praise Tanlac the longest day I live, for it is wonderful how this medicine has helped me," said Mrs. M. J. Flanigan, of 104 Claiborne Street. Nashville, Tenn.

"For three years," she continued, "I suffered something awful with cold chills and smothering spells. My heart would thump like a trip-hamm r and then would almost stop and then I would be too nervous to keep still and would often turn right blind. I would break out in cold sweats and to fan me to keep me from smothering. There was a hard lump .n my stomach, and no matter how much medicine I took those awful spells

kept coming on. "Three months ago I started taking Tanlac and began to pick up right along. Nothing I eat now disagrees with me, that lump stopped forming in my stomach and the chills, hot spells and blindness have never come back. I now weigh twenty pounds more than I did before and feel all right. My daughter, Elsie, was all rundown and unfit for work, but Tan- Aermotor Windmills & lac built her up so she is able to work ten hours a day."

Unusual Value-In Tires for Small Cars

Not only is characteristic Goodyear merit conspicuous in Goodyear Tires for small cars but ordinarily the first cost is found to be not greater than that of other tires; often it is actually less.

The combination of unusual value in first cost and very low final cost, of course, is a result of Goodyear experience, expertness and care employed as insistently in the making of 30x3-, 30x31/2- and 31x4-inch tires as it is in the construction of the famous Goodyear Cord Tires used on the highestpriced automobiles.

For this reason more cars using these small sizes were factory-equipped last year with Goodyear Tires than with any other kind. Get this unusual tire value to enjoy on your Ford, Chevrolet, Dort, Maxwell, or other small car, at the nearest Goodyear Service Station. Get these tires and Goodyear Heavy Tourist Tubes at this station.

30x 3½ Goodyear Double-Cure \$2000 Fabric, All-Weather Tread......

30 x 3½ Goodyear Single-Cure \$1765

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good croing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. $30 \times 3\frac{1}{2}$ size in water- \$300 proof bag

kind, is as follows: "Dear Friend-Another little child has shriveled up and died.

"The mother, creeping back, gaunt and cold, from the desert, has put down the thin little bones with those that strew the road and has sunk beside them, never to rise again.

"Only a little child and a mother out on the bleak Armenian road! But what is that vision hovering there and what is that voice the cold winds bear to the ears of our souls-'I was hungry and ye gave me no meat; I was naked and ye clothed me not.'

"Today-yes, today-while we are preparing our gifts for Christmas, many more of these little childrennot a hundred nor a thousand, but 250,000 of them-are still wandering uncared for and alone in that dead land, 'their weazened skins clinging in fear to their rattling bones,' and they are crying out with gasping breath, 'I am hungry, I am hungry!' And the voice of one who watches us as we prepare gifts to celebrate his birthday comes again to the ears of our souls-'I am hungry! I am hungry!! I am hungry !!!"

"Now, the children and the mothers in Armenia are dreading the winter. 'Just human remnants they are, not protected, many of them, from the elements by even the dignity of rags. The most favored have merely shredded rags.' How shall we sing our Christmas songs and laugh and light the candles and give beautiful gifts while that pleading voice cries in the ears of our souls, 'I am naked and cold -naked and cold?

"But we can feed and clothe these perishing ones-some of them-before it is too late. Herbert Hoover has c bled from the Caucasus, 'It is impossible that the loss of 200,000 lives can at this day be prevented, but the remaining 500,000 can possibly be saved." They need not starve and freeze and die if we will save them. In the name of him who saw the multitude 'as sheep not having a shepherd and was moved with compassion toward them,' who exclaimed when his disciples would turn them away, 'They need not depart, give ye them to eat!' open your heart and purse and give to these Christians whom he loves, who are suffering for him and with whom he is suffering. They need not die. Give ye them to eat.

"What a joyful Christmas it will be when with your songs and your laugher you hear a voice of wondrous sweetness speaking to you, 'O, ye blessed of my Father, I was hungry and ye gave me meat, I was naked and ye clothed me; inasmuch as ye have done it to these, my brethren, ye have done it to me.'

BANDITS ATTACK HARBORD. THINKING HIM ARMENIAN

Because he and members of his party were mistaken for Armenians, Maj. Gen. James G. Harbord, head of the American Mission to Armenia, narrowly escaped death at the hands of a band of marauding bandits a few miles from Mount Ararat. Major General Harbord has just returned to the United States and made a report to President Wilson on the distressing conditions in the Near East, now. A few months more and it may where American charity is saving be relief will be too late for those thousands of lives through the Near myriads whom only we can save. We East Relief.

MORGENTHAU PLEADS FOR HELPING HAND IN THE NEAR EAST

Former Ambassador to Turkey Says America Should Not Let Armenian Allies Starve.

the American people. They look to us as the human agency to extricate them from the frightful situation in which they have been left as a consequence of the war.

If we should fail to aid them, starvation and the winter's cold would go far to completing the work done by the unspeakable Turk.

I have not seen with my own eyes the misery in which the Armenians now exist. I have been spared that. But the reports which have been brought in by agents of the Near East Relief and by representatives of the Peace Conference paint a picture of wretchedness inconceivable to those who have not a first hand impression of the savagery of the Mussulman.

Exiled From Homes.

Since the beginning of the war the Turkish Armenians have been largely refugees from their homes. A simple agricultural people, they have been exiles from their farms, deprived of all opportunity to support themselves. Year by year their sufferings have increased. Now, a year after fighting has ceased, they are still living the life of nomads, able to continue to keep alive only by virtue of American philanthropy.

These homeless people-"filthy infidels" to the Turk-were good enough to exert their poor might in our behalf while the war was still in the balance. Massacres of a half century had not so broken their spirit that they dared not fight for right and for democracy when justice was the issue. We accepted their aid then. Surely we shall not pass them by without compassion now.

The day has passed when any self respecting man dares permit absorption in his own personal affairs to exclude consideration of his neighbor's well being. No honorable man can knowingly allow his neighbor to hunger or to go unclothed. The Christian peoples of the Near East are our neighbors. The money needed to relieve them can be spared without causing any man, woman or child in the United States to suffer.

. Must Not Rest on Past.

In other years of our own free will we sent missionaries to Turkey. Our schools and colleges and hospitals have played a wonderful role in humanizing that dark spot in the world. Our ideas, our educational resources, our material equipment, have been leaven in the Near East. Because we have done well in times past we have this great opportunity for the present.

The Armenians have been treated as perhaps no people in history have been treated because they are the spiritual brothers of western races.

Will America help them? There can be but one answer. Their necessity is dire, but our power is great. We are wealthy. We are a member of the family of nations. Our brothers call us. Food, clothes, money, are immediately wanted. If ever unmerited suffering called for succor the plight of the Armenians should be heeded shall not full them.
